

In conjunction with VMware  
**laaS for Medical**  
Infrastructure as a Service

# CYBERSQUAD IT NOW OFFER **IAAS FOR MEDICAL PROFESSIONALS**

## ONLY **\$149.00**

PER MONTH, PER WORKSTATION\*

For a **fixed monthly fee**  
we will supply your practice with  
an onsite IT solution including:

- Brand new high-end server or server(s)
- Brand new workstations, wireless keyboards and mice,  
+ 23" LCD monitors (for all users)
- Enterprise backup solution with 2TB+ SAN unit and software
- Automatic monthly updates of Windows® & third-party software,  
including drug & data updates on server(s) & all workstations
- Microsoft Windows® 7/8 virtual machines and licenses (for all users)
- Microsoft Office® Professional 2010/13 licenses (for all users)
- Microsoft Server® 2012 licenses + SBS 2011 license
- VMware Horizon View® infrastructure and licenses (for all users)
- Free loan equipment if and/or when required

\* minimum of 10 users; for less than 10 users, please contact us for a quote.

Offsite 'cloud' solutions also available from  
\$82.00 per simultaneous connection, per month.

We have developed this pricing system to allow practices to upgrade to the latest technology without the up-front costs. This is simply an ongoing fee that will always provide your practice with the latest hardware, software and technology as well as having updates performed automatically. In the instance that any of the equipment fails or degrades over time, we will simply replace or upgrade it at no additional cost to the practice.

Further details can be found in our VMware Horizon View for Medical Professionals brochure. <http://iaas.tv>
